

neighbours' day

Friday 28 May

Friday 28 May 2010

Celebrate with your neighbours!

A chance to meet your neighbours,
to get to know each other better,
so share some refreshments,
to develop some respect, to have a party!
All over Europe, millions of people
are doing the same :
meeting their neighbours and trying
to make their neighbourhoods more friendly.

Handy hints to get you started!

- Talk to your neighbours about the event.

Prepare the party together. Keep things simple. You have already begun the celebration!

- Where to hold your event
 - outside in your street
 - in some nearby open space or someone's garden
 - in a communal area of your flats, either inside or outside
- Make sure you get permission if it is needed!
- Put up posters and distribute invitation cards. These can be obtained from us.
